

Penny Black

Project Guide

Designer: Patti Kehl

Products used:

Flower Flourish die 51-421

Frames die 51-410 and Mimi's

Love 30-270 clear set

Instructions:

A frame die cut can be a focal point all on its own, no need to create a complicated design inside of it. Ink the frame with one color of ink using an ink blending tool with a foam pad. Apply a heavier application of ink (more layers) towards one side of the die cut and you will instantly have a trendy ombre effect. This would make a great gift set, just imagine a set of cards with frames in every color of the rainbow!
