Artist Notes:

This is the card I made using the left side of the Melody Makers stamp. I created the design on the white cardstock base using the Rows of Stitches die. There can never be too many ways to create a background. I love the little tag die in the Gift Card die set. Tags are a good way to add a sentiment when you have created a textured background. Each layer of my card is trimmed with a border, giving the card a finished look.
